The City of Pahokee is receiving applications for the position of Administrator of Public Safety, who will serve as a stopgap in the vacancy caused by the recent resignation of Chief of Police Leon Guthrie.

At the Aug. 10th meeting the City Council authorized that such an office be established, corresponding to that of the chief of police, to be filled until the next regular city election or until such time as a chief of police is either appointed or the position otherwise filled.

Applicants, who do not have to be residents of Pahokee in order to be eligible for the job, must have their applications in at the city clerk's office before the next regular meeting of the Council Monday, Aug. 24. Application blanks are available at the city clerk's office.

Miss Hazel Sheppard is able to be out following a recent tonsilectomy at St. Mary's Hospital in West Palm Beach.

Farmers Planting Corn And Setting Celery

With the middle of August past, Glades farmers are busy as the proverbial bees with the corn planting and celery setting. Of course, the corn planting is much more widely spread over the Glades than the celery setting at the present time.

Growers, who are anxious to hit the early October market, have been putting corn in the ground for several days now. One patch — about 40 acres — is more than eight inches high and is unusually healthy for the time of year.

Celery setting in spots over the Glades begins to give the area a much greener hue. Sam Senter Farms have several acres already set and much of the luscious weed has been transplanted on the south side of the lake.

The W. G. Hull farm east of Canal Point experienced a small tornado Saturday afternoon that did a great deal of damage to 20 celery seed beds. The covering cloth was ripped off of some beds by the big wind which was followed by a 4 1/2 inch rain in that particular area. Workmen repaired the seed beds this week.

Record Number In Local Bible School

Preparation Day with a parade was held last Friday for the Canal Point Baptist Church Vacation Bible School and everything on Monday morning of this week got off to a tremendous start. Rev. Lawrence Stewart reports that Monday morning saw 134 in attendance, a record number for the church.

The parade was held through Canal Point and Pahokee ending up at J. G. Weeks and Sons for an ice cream treat.

The enrollment as of this date is approximately 170. The goal is 200 for the school. An excellent spirit is prevailing throughout the school. Fun, recreation, fellowship and Bible Study is being enjoyed by all.

Hold The Line On Quota Is Asked

The county commission this week agreed to ask the Florida congressional delegation to take what ever steps possible to "hold the line" on quotas for sale of sugar during the coming year.

Attention of the commission was called to the possibility that some new growers in Palm Beach County might miss the quota deadline and would be handicapped when it comes to marketing the crop. If quotas are not set, growers are faced with the problems of having sugar and no authorized market. The alternative is to store the crop, but many new Glades growers are without storage facilities.

It is estimated that Palm Beach County has 224,000 acres in sugar cane—the largest cane acreage of any county in the nation.

Complete Faculty For Pahokee High

The Pahokee Junior-Senior High School is starting the new school year with a complete faculty, including six new teachers. Two of the new teachers, Mrs. Gladys Harrington and James Threlkeld, are transfers from the Canal Point School, together with the Seventh and Eighth Grades from the Canal Point School.

Also new on the school's teaching staff will be Miss Joyce Hudson, home economics; John Spriggs, commercial studies; Joe Jones, English; and Donald Thompson, social studies. Mr. Thompson is a local young man who graduated with the Pahokee High School Class of 1959 before going to college.

It is expected the transfer of the two upper grades from the Canal Point School to Pahokee will give Pahokee Junior High a sharp boost in enrollment, as many as 50 more students.

Other than the six new teachers listed above, the staffs of the administrative personnel, faculty, secretaries, cafeteria manager and custodians at the Pahokee Junior-Senior High School will be the same as last year.

Band Parents Will Meet Monday Nite

The Pahokee Band Parents Association will hold its first meeting of the new school year at the Band Room on the high school campus Monday, Aug. 24, at 7:30 p. m.

A special committee will be organized to solicit ads in the football programs for the home-games of the Pahokee High School Blue Devils, this being the Band's only fund-raising project during the year. Mrs. Gene McDowell, the new president, will preside.

Mr. and Mrs. Rardin came to Canal Point from Moore Haven where he worked a short time before being transferred here from that Glades town. The Rardins live on Third street in Canal Point where they have lived for a majority of the 30 years they've been here.

Throughout the 30 years Rardin has been an ardent civic worker and Mrs. Rardin has carried on her regular duties as pianist for the Canal Point Baptist church. He served two years in the State Legislature and is rounding out 20 years as the Glades member on the Palm Beach County Commission.

The workshop will continue Monday through Thursday of next week.

The Canal Point School is starting the new 1964-65 school year minus two grades, the Seventh and Eighth Grades, which have been transferred to Pahokee Junior High School by the County Board of Public Instruction in spite of the protests of a number of the parents of Canal Point students involved, who were very happy with the old setup of eight grades at the Canal Point school. Transferred also to Pahokee with the students were Mrs. Gladys Harrington, teacher of the Seventh Grade, and James Threlkeld, eighth grade teacher at the Canal Point School last year.

The School Board has assigned seven teachers for the remaining six grades at the Canal Point Elementary School, with two positions, a teacher of the Sixth Grade and teacher of a combination of grades yet to be filled this week, according to Principal W. W. White.

Teachers returning include Mrs. Alma Burr, first grade; Mrs. Helen Henderson, second grade; Mrs. Mildred Larrick, third grade; Mrs. Billie Huddle, fourth grade; and Mrs. Charlotte Walston, fifth grade. This group, together with Principal White, reported at the school on Tuesday morning for several days of preschool planning before the start of classroom sessions for the students on Monday, August 31. Thursday, August 27, has been designated as registration day for students, all grades.

Mrs. Lola Ryals Carter, assisted by Mrs. Opal Stevens, will again serve this year as lunch room manager and Rufus Broyles, custodian.

Millions In Road Work Now Going On

One of the greatest road building programs in Palm Beach County is now underway, according to a report Monday to the county commission from George Frost, county engineer.

Frost said \$4 million in projects are now underway in the county's \$15 million bond project; an additional \$250,000 worth of road and bridge work is now going on under contract and that another \$370,000 in road and bridge work is being done by county forces.

The engineer also announced that bids will be received by the State Road Dept. on August 25, for improvement to Airport Road, Bacom Point Rd., Avenue E in Belle Glade.

Commissioner Rardin of Canal Point announced that contracts have already been let by the SRD for rebuilding Larrimore Road and Rardin Avenue in Pahokee and construction of a bridge across the Hillsborough canal in Belle Glade at Fifth Street. Location of the bridge was designated by the Belle Glade City Commission in a resolution adopted several months ago. The resolution was forwarded by the County Commission to the State Road Department who in the final action located the bridge at Fifth Street.

Here Is What Transpired At Monday's Meeting Of The Palm Beach County Commission

A number of items concerning recently built schools in the county came to the attention of the County Commission Monday.

The board agreed to construct, with county forces, a new road between North Palm Beach and Palm Beach Gardens to serve as a secondary access road for Palm Beach Gardens Elementary School.

The commission also agreed to cooperate with the City of Riviera Beach for construction of a path along Acre Home Blvd., to serve John F. Kennedy High School.

In another action, the commission heard a report from Louis Morrell, deputy county registrar, on plans for re-registration of all free holders in the county for a November bond election proposed by the county school board. Morrell told the board that all steps will be taken to assure that the re-registration is accomplished with ease and economy.

A new soil research project to be launched by the state agricultural department is set for a new experimental station to be located west of Delray Beach.

The station will be named by employees of the state extension service in cooperation with the county agricultural department on land which have been donated by

south county property owner.

The county commission Monday authorized construction of an extension of Carter Road to open up the new area—a 40-acre plot.

County Agent M. U. Mounts, spokesman for a group of Delray Beach growers, said the farmers will use their own equipment to clear and ditch the land for the new experimental station. Mounts told the commission that the new soil research is one that will be very valuable to East Coast farmers.

The County Commission this week asked the Florida Inland Navigation District commissioners to hold up the sale of a 23-acre plot of land, which the county hopes to obtain for recreational purposes.

The commission, without funds to pay for the area near Juno, appraised at \$71,500, asked that it be withheld from public sale until it is determined if FINTD could turn the land over for public purposes told the commission the area has without charge.

County Engineer George Frost 1600 feet of frontage on the inland waterway and that the section has "excellent recreational potential for the future."

A message from the Treasury of a free people

How to speak out for freedom today

Free men have never gone in much for silence. Even before the first thirteen States became United States, men were speaking for freedom loud and clear.

Today Americans speak out for freedom many ways—in Congress, in local government, in neighborhood activities. Some speak out for freedom in other languages, in other lands. And millions of Americans speak out for freedom every time they buy U.S. Savings Bonds.

Every Savings Bond you buy is an investment in freedom. While you're saving money for your

own family's future, you're helping Uncle Sam tend to the business of keeping men free today.

Perhaps you don't speak out for freedom in the same tone of voice when you buy a Bond as Patrick Henry did in his famous speech. But you speak every bit as surely. And every bit as proudly.

Why not speak out for freedom now? Buy Bonds at the bank or on the Payroll Savings Plan where you work.

Keep freedom in your future with

Christian Science Group Of Canal Point

"Mind" will be the subject this Sunday in the last of a series of Bible Lessons on names belonging to God, being presented at all Christian Science churches.

"He that formeth the mountains, and createth the wind, and declareth unto man what is his thought, and treadeth the morning darkness, and treadeth upon the high places of the earth, The Lord, The God of hosts, is his name" (Amos 4) will be included in the Bible readings.

To be heard also is this statement from "Science and Health with Key to the Scriptures by Mary Baker Eddy (p. 256): "Infinite Mind is the creator, and creation is the infinite image or idea emanating from this Mind. If Mind is within and without, all things, then all is Mind; and this definition is scientific."

Let Your Money Earn 4½% Payable Semi-Annually

New $3\frac{3}{4}\%$ interest on U.S. Savings Bonds

*The Treasury explains why the new ones you buy and the ones
you own now are better than ever*

Q: How does the new $3\frac{3}{4}\%$ interest rate benefit me?

A: With Series E Bonds, the rate turns \$18.75 into \$25.00 fourteen months faster than the old rate. Your savings increase faster, because your Bonds mature in just 7 years, 9 months.

With Series H Bonds, the 10-year maturity period stays the same but more interest is paid you each six months. With both E and H Bonds the new rate works out to $2\frac{1}{4}\%$ for the first year and a half; then a guaranteed 4% each year to maturity.

Q: When did the new rate become effective?

A: June 1, 1959.

Q: Does the new rate change the Bonds I bought before June 1, 1959?

A: All older E and H Bonds pay more now—an extra $\frac{1}{4}\%$ from now on, when held to maturity. The increase takes effect in the first full interest period after June 1.

Q: Will the Bonds I own automatically earn their new rate?

A: Yes. You don't need to do a thing—just hold on to your Bonds.

Q: When my E Bonds mature, will they keep on earning interest?

A: Yes. An automatic 10-year extension privilege went into effect along with the new interest rate. This means your E Bonds will automatically keep earning interest after maturity.

Q: With the new interest rate, should I cash in my old Bonds and buy new ones?

A: No. The automatic $\frac{1}{4}\%$ increase makes it unnecessary—and in almost every case it is to your advantage to retain your present Bonds.

Q: How are series H Bonds different from series E Bonds?

A: The chief difference is this: You buy H Bonds at full face value and the interest is paid by Treasury

check every six months for the life of the Bond. You buy E Bonds at 75% of face value and the interest accumulates to maturity. H Bonds provide income for living expenses, while E Bonds build a nest egg for the future. That's why many retired people hold H Bonds and families saving for, say, a child's education, buy E Bonds.

Q: In what denominations can I buy series E and series H Bonds?

A: E Bonds: \$25 (cost \$18.75), \$50 (cost \$37.50), \$100 (cost \$75.00), \$200 (cost \$150.00), \$500 (cost \$375.00), \$1,000 (cost \$750.00), \$10,000 (cost \$7,500.00).

H Bonds: \$500, \$1,000, \$5,000 and \$10,000. They are priced at face value.

Q: How safe are U.S. Savings Bonds?

A: Savings Bonds are an absolutely riskless way to save. The United States Government guarantees the cash value of your Bonds will not drop, that it can only grow.

Q: What if my Bonds should be lost, stolen or destroyed?

A: You can't lose. Every Bond purchased is recorded by the Treasury. If anything happens to your Bonds they are replaced—free.

Q: Where can I buy Bonds?

A: Buy E Bonds at any bank—it takes only a few minutes. Buy them automatically through the Payroll Savings Plan where you work. This Plan means you can have any amount you name automatically deducted every payday. The Bonds you buy by installments are delivered to you automatically, too. Your bank will take your order for H Bonds.

Q: How do I help strengthen America's peace power when I buy U.S. Savings Bonds?

A: Peace costs money—money for military strength and for science. And money saved by individuals helps keep our economy sound.
